Special Note (if any)	None

Case Background (Detailed)

On 4 October 2022, Manan Dewan was found dead in his house. He was shot in the head. This happened when no one else was present. Anika Dewan De Santa (Michael's wife), a nurse, was at work and Tracey (Michael's daughter), a student, was at her friend's birthday party.

At 7:58 PM, Anika Dewan reached her house and found her husband dead in the living room with a bullet-hole in his head.

At 8:00 PM, she reported this to the police. The Police came by at 8:25 PM and at 9:00 PM, the F.I.R was registered.

From 9:11 P.M, the police started the initial investigation at his house where they found the following things:

1. They found that the door lock was broken.
2. The security cameras were found switched off for the day.
3. The only desktop computer in the house was found damaged, along with a broken monitor.

After these findings, the police took the body to the morgue to do an autopsy.

October 6th 2021, 8:00 AM

The Police started their investigation by checking the street and neighbour's CCTV cameras.

In one of the street cams, they found their first suspect who was clicking photos of the interior of the house with a DSLR camera at 7:05 PM. At 7:14 PM, he seems to have left the area.

At 7:20 PM, the second suspect Sameer Bhaln was found observing the house. Sameer Bhaln is a convicted criminal, recently released from prison, after serving a sentence of 10 years.

At 7:30 PM a third person arrived at the house in a black car (Toyota Camry) and left the scene at 7:35 PM.

The police arrested the two suspect Abhiram Gosh and Sameer Bhaln at their houses at 10:00 AM and 10:30AM the same day, and the third suspect was found at the hotel Radisson Blu by tracing the car's number plate at 2:00 PM

Evidences Collected:

From the first suspect, after interrogation, it was revealed that he was stalking Tracey De Santa because he was attracted to her. He had several photos of Tracey De Santa on his pen drive.

		From the second suspect, the police got nothing note-worthy to the case. From the third suspect, the police seized his laptop, which was encrypted but unlocked at the time of seizure, and an iPhone, which was encrypted and locked.

Evidence

The image displays three sequential screenshots of the Autopsy 4.19.3 forensic analysis software interface, illustrating a search process for a specific file.

Top Screenshot: Shows the main interface with the 'Data Sources' pane on the left. The 'File System' view is selected, showing a directory tree. The 'Case View' pane on the right displays a list of files and folders, including a file named 'Richard Stoltzman'.

Middle Screenshot: Shows the 'Search' results pane. A search query has been executed, and the results are displayed in a table. The table columns are: Source Name, Size, Modified Time, Access Time, Created Time, Size, Page(s), Page(s) Viewed, Reason, and Location. The results show a file named 'Richard Stoltzman' located in the 'Downloads' folder.

Bottom Screenshot: Shows the 'Search' results pane with a different search query. The results are displayed in a table with the same columns as the middle screenshot. The results show a file named 'Richard Stoltzman' located in the 'Downloads' folder.

Examiner's Comments

No relation between Sameer Bhaln and Manan Dewan could be established from the evidence. It seems that Dexter is trying to merge back into the society, given his history, and clear to go.

Finding#4	Trevor has access to bitcoins and illegal guns.
Finding #5	Home P.C. had contacts with Trevor.
Recommendations	
<p>The law enforcers and Jury should consider the death of Manan Dewan’s murder as a work done by one of the family members. Abhiram Gosh is not the murderer of Michael, but a stalker of Tracey De Santa and Anika DewanDe Santa. Sameer Bhaln is not related to the death of Manan Dewan in any way. He is trying to get back into society after serving his time. Trevor is most likely the prime suspect of the case, as his intentions seem to be motivated by money. There also seems to be Anika DewanDe Santa’s involvement in the death of Michael, (as seen from divorce and alimony searches) which should be taken into consideration before taking a decision.</p>

FROM: Mohammad Nadir Khan(#EMP101502)

SUBJECT: Consultation of Digital Evidence for Case #J102

The purpose of the document is to inform you (case investigator) what may or may not be discovered. Additionally, we will explore preliminary topics in digital analysis relevant to this case. From the request placed by your team, I see no other forensic processes required for the evidence. This includes all items listed: pen drive, laptops, mobile phone, personal computer. The potential evidence being sought remains to be images, flight tickets, emails, web searches and other information related to the incident. As per the basis of our investigation, the suspects do not have high level knowledge about computers . The evidence priority requested by your team is noted. We shall start analysing the evidence starting with Abhiram Gosh, suspected of stalking the victim's daughter. Secondly we will inspect the devices found with Sameer Bhaln, who is a hardened criminal found near the house during the incident and finally we shall analyse the devices possessed by Nakul Bhargawa, suspected of barging in and murder. If we discover other criminal activity unrelated to charges in case #289, we will be looking for further guidance from your team.
